

Airbus AS355

Airbus AS355 Helicopters are part of the A-Star / Squirrel family.

This is the twin-engine version of the famous and extremely reliable AS350 and is therefore also known as the Twin Star or Twin Squirrel. It has managed to sustain its popularity for several years and is yet one of the most successful twin-engine helicopters in the market, while it is also considered to be the most efficient helicopter in its class. The AS355 provides extra safety as it has a redundancy in all crucial systems, and the level of vibration is kept remarkably low, allowing passengers to enjoy a smooth and comfortable flight.

A spacious, unobstructed cabin and 5 forward looking passenger seats in total, provide excellent visibility, making the aircraft an outstanding choice for transportation, meeting the most demanding customer requirements.
