

Robinson R44 **Raven II**

The Robinson R44 Raven II is a high performing, four-seats aircraft. It has been the world's best-selling GA helicopter for more than two decades. The R44's aerodynamic fuselage optimizes airspeed and fuel economy. It is powered by Lycoming IO-540 fuel injected engine, with a cruise speed of 110 knots, perfect not only for short sightseeing flights but for island transportation as well. With a comfortable seating arrangement (all seats face front), it offers excellent external visibility during flight – passengers can simply sit back and appreciate the extraordinary view.
