

Cessna 550 Citation IIS

This popular jet sets the standard, for modern light business jets. A fast, twin-engine aircraft, renowned for its ability to fly at 41,000 feet, offering an exceptional flight experience to its passengers. The Cessna 550 Citation IIS is a modification of the Cessna best-ever selling business jet. It carries more and goes faster than its predecessor, while still maintaining its reputation for simplicity and economy. The Citation range of aircraft manufactured by Cessna, features a spacious cabin that typically accommodates 7 to 8 passengers comfortably. It is equipped with pedestal-mounted swivel chairs, has a hot and cold beverage area and a mini-bar. The Citation IIS is the definition of increased performance and comfort. The ideal aircraft for the European continent, it combines cost-efficiency with excellent access to Europe's smaller airports.
