

Dassault Falcon 7X

Dassault launched the 7X as the flagship of their business jet range. It represents the pinnacle of the Falcon series of aircraft, as it is not only the fastest but also offers the greatest range of 11,000km. Its high performance is partly due to the three ultra-modern turbo fan engines, which power the 7X, as well as the intelligent, streamlined design of the aircraft. This external design increases the jet's efficiency, maximizing the comfort inside the cabin, as state of the art avionics ensure that each flight is smooth and relaxing. This long-range jet also features an accommodating cabin which seats up to 14 passengers in unparalleled comfort and outstanding in-flight technology, to make any flight entertaining and enjoyable. Unbeatable dispatch reliability and leading-edge avionics. The Dassault Falcon 7X delivers it all, being an absolute a piece of art, unmatched among large jets.
